

REPORT OF INDEPENDENT ACCOUNTANTS ON REVIEW OF NONFINANCIAL INFORMATION

THE BOARD OF DIRECTORS AND STOCKHOLDERS OF THE CLOROX COMPANY

We have reviewed selected quantitative performance indicators (the “Subject Matter”) included in Exhibit A and as identified by the “” symbol presented in The Clorox Company’s (“Clorox” or “the Company”) Annual Report for the year ended June 30, 2018, or otherwise noted, in accordance with the criteria also set forth in Exhibit A (the “Criteria”). The Clorox Company’s management is responsible for the Subject Matter included in Exhibit A, in accordance with the Criteria. Our responsibility is to express a conclusion on the Subject Matter based on our review.

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants (AICPA) in AT-C section 105, Concepts Common to All Attestation Engagements, and AT-C section 210, Review Engagements. Those standards require that we plan and perform our review to obtain limited assurance about whether any material modifications should be made to the Subject Matter in order for it to be in accordance with the Criteria. A review consists principally of applying analytical procedures, making inquiries of persons responsible for the subject matter, obtaining an understanding of the data management systems and processes used to generate, aggregate and report the Subject Matter and performing such other procedures as we considered necessary in the circumstances. A review is substantially less in scope than an examination, the objective of which is to obtain reasonable assurance about whether the Subject Matter is in accordance with the Criteria, in all material respects, in order to express an opinion. Accordingly, we do not express such an opinion. A review also does not provide assurance that we became aware of all significant matters that would be disclosed in an examination. We believe that our review provides a reasonable basis for our conclusion.

In performing our review, we have complied with the independence and other ethical requirements of the Code of Professional Conduct issued by the AICPA.

We applied the Statements on Quality Control Standards established by the AICPA and, accordingly, maintain a comprehensive system of quality control.

As described in Exhibit A, the Subject Matter is subject to measurement uncertainties resulting from limitations inherent in the nature and the methods used for determining such data. The selection of different but acceptable measurement techniques can result in materially different measurements. The precision of different measurement techniques may also vary.

Based on our review, we are not aware of any material modifications that should be made to the selected quantitative performance indicators for the year ended June 30, 2018, or otherwise noted, in order for it to be in accordance with the Criteria.
